World Wide

The Superior innovative designs, the seamless quality, the ceaseless market research and robust marketing, are our company's prime objectives. Pinto takes extreme delight in providing our customers a deluxe lifestyle, with proper brand management and support. Our products have a huge clientele ranging from high class metros to mediocre cities and villages, all depending on our repute.

## ABOUT OUR PRODUCT

Traditionally, when Indians are thinking of building a house, the first thing to consider is how to get the necessary locks or how to build them.

In the past, we have been able to organize good old-fashioned trees from cradle or affordable wood mills.

Today....

They are willing to pay a good price, but there are not enough trees available.

The next possibility is to use imported trees. Currently, there is no scientific way to demonstrate how their age and survival rates match our climate.

How did other locals build their houses without enough wood?

Yes,

Here are some steel windows that have been used abroad since ancient times and are now available in our local designs and sizes.

UV Protected

Termite Proof

Sound & dust proof

Easy to install

Available in different sizes

High quality hinges

Low cost price

Fire resistant

Anti corrosive
